

# Look at MED e-care for all your care planning, assessments and medication management needs!

## *Competitive Pricing*

MED e-care understands the budgetary constraints in Long Term Care in New Brunswick and have reduced our prices and modified our pricing structure to reflect the current climate.

## *Cutting-Edge Technology*

Cutting edge doesn't have to be confusing. MED e-care's software is designed to be user-friendly and minimise time spent entering data.

- Find resident information quickly & easily when you need it.
- Automatically generate a care plan just by completing an assessment
- Have all medication and PRN information at your fingertips
- Secure access to resident information from any location

## *Reduce negative events and improve resident health status*

MED e-care is one of Canada's leading providers of clinical care planning and assessment tools to the long-term care sector.

With the use of the interRAI assessment and our unparalleled reporting capability you will gain deeper insights into resource and resident health management than you've ever had before.

## *Personalized and Knowledgeable Training & Implementation*

Our training team has created personalized training programs across the country in both French and English to simplify the transition process.

Our implementation team will discuss every detail of the transition with you before your training date to customise the user-experience and guarantee it fits your processes. We will tailor our time to suit your needs.

Don't have the staff for data entry to get started on MED e-care? We will even transfer your resident information from your current software into MED e-care!

## *Fully Integrated Electronic Medication Administration Record (eMAR)*

MED e-care's eMAR is fully integrated with most major pharmacies. This connects you directly to your pharmacy making re-orders and notifications instantaneous! MED e-care is also the only eMAR provider to offer an integrated 'offline' eMAR solution for homes without wireless internet!

*eMAR also Reduces medication errors through '5 Rights'*

- Administering the **Right medication** with the **Right dose** through the **Right route** of administration with medication images and detailed descriptions of the medication and dosage
- for the **Right patient** – Resident photos and detailed patient notes
- at the **Right time** – the MED e-care eMAR will flag missed medications and send reminders to ensure you never miss a medication and guarantee complete documentation

## MED e-care could be the missing piece to your Long-Term Care needs

*We pride ourselves on being a "Centre of Excellence in Aging Care". Your software and services has provided us with the necessary tools and information to meet that standard and to ensure we continue to do so.*

*Kevin Harter, Administrator, York Care Centre, Fredericton, NB*

*The staff love the (eMAR) application for Med Passes.*

*Mike Harvey, administrator, Waukehegan Manor, Mcadam, NB*

*MED e-care's e-MAR has revolutionized our medication passes... The medication passes are much more efficient (and) the chance of a medication error has greatly decreased. The ability to print condensed reports for physicians and hospital transfers has greatly reduced labor time in addition to providing a better overview of the residents' condition.*

*Kay Simonds & Shirley Hovey, Administrator and DOC, Carleton Manor, Woodstock, NB*
